## USFR COMPLIANCE QUESTIONNAIRE

### INSTRUCTIONS

Arizona Revised Statutes (A.R.S.) §15-271 requires the Office of the Auditor General to inform any school district failing to establish and maintain the requirements prescribed by the *Uniform System of Financial Records* (USFR) that it has 90 days to correct the cited deficiencies. To assist the Office of the Auditor General in determining whether a district has attained an acceptable degree of compliance with the requirements of the USFR, the audit firm must complete this USFR Compliance Questionnaire. A copy of the completed questionnaire must be submitted with the audit reporting package to the Office of the Auditor General and the Arizona Department of Education (ADE).

In addition, A.R.S. §§15-213(F) and 15-914(G) require districts to have a systematic review of their purchasing practices and average daily membership (ADM), respectively, performed in conjunction with their audit. The purpose of the review is to determine whether the District is in compliance with the applicable procurement and student attendance laws and rules of the State of Arizona. Districts meet these requirements by having their audit firm complete Expenditures and Procurement questions 19 through 32 and Student Attendance Reporting questions 3 through 21.

The USFR Compliance Questionnaire must be completed in accordance with the requirements prescribed below by the Office of the Auditor General. Audits not meeting these requirements may be rejected.

- ◆ Sufficient, appropriate evidence must be obtained annually for each question to satisfactorily determine whether the District is in compliance with the USFR, and the evidence must be included in the audit documentation.
- ◆ Evidence may be obtained through test work, observation, examination, and client assertion. However, client assertion alone is not adequate evidence to support “Yes” answers to the questionnaire.
- ◆ Population size should be considered in determining the number of items to test, and the items selected should be representative of the population. Also, additional instructions in the Expenditures and Procurement and Student Attendance Reporting sections prescribe minimum sample sizes that must be used for specific questions.
- ◆ The number of items tested must be sufficient to determine whether a deficiency was the result of an isolated incident or a recurring problem. Therefore, testing one transaction, record, or item is not sufficient.
- ◆ The sample size should be expanded if the audit firm cannot clearly determine whether the District is in compliance with the USFR on that question.
- ◆ If sufficient evidence has been obtained and documented during the current audit, that evidence may be referenced to answer questions.
- ◆ For Governing Board/Management Procedures question 4, the audit firm should confirm management’s appropriate action to resolve all allegations of theft, fraud, or misuse of district monies or assets by either examining copies of the incident reports or communicating with the agency involved in investigating the allegation.
  - If the audit firm determines that district management was aware of allegations but did not appropriately resolve them in a timely manner (e.g., no action was taken, actions were not documented, actions were delayed, inadequate, or inappropriate to the circumstances), the audit firm should answer the question “No.” This includes instances where an external investigation is underway for allegations, but district management did not request the investigation, was not fully cooperating with the investigators, or was not otherwise attempting to resolve the allegations.
  - If the audit firm determines that district management was not aware of any allegations (based on inquiry, review of Governing Board minutes, search of local media coverage, and results of audit test work), the question should be answered “N/A.”
  - If the audit firm finds evidence of theft, fraud, or misuse of district assets but does not find evidence that district management was aware of the possible theft, fraud, or misuse, the audit firm should appropriately investigate and report the theft, fraud, or misuse to the Office of the Auditor General, but this question would be answered “N/A.”
- ◆ A “Yes” answer indicates that the audit firm has determined that the District is in compliance with the USFR on that question and a “No” answer indicates the District does not comply. However, the final determination of compliance on each question, as well as overall compliance with the USFR, is made by the Office of the Auditor General based

## USFR COMPLIANCE QUESTIONNAIRE

on the evidence presented in the questionnaire, audit reports, the audit documentation, and any other sources of information available.

- ◆ All “No” answers must be adequately explained in the comments column or in an attachment. Deficiencies must be described in sufficient detail to enable the Office of the Auditor General to determine the nature and significance of the deficiency for: (a) assessing compliance with the USFR, (b) appropriately describing the deficiency in a report, and (c) testing compliance during a status review. The description should include the number of items tested and the number of exceptions noted.
- ◆ All “N/A” answers must be adequately explained in the comments column.
- ◆ Cash and Revenues questions apply to all of the District’s cash and revenue, including food service, auxiliary operations, extracurricular activities fees tax credit, and student activities receipts and bank accounts, as applicable. Comments for “No” answers to these questions should indicate the type of receipt or bank account to which the deficiency applies.
- ◆ The questions in this compliance questionnaire do not address all requirements of the USFR. If the audit firm is aware of noncompliance with a requirement of the USFR, including the School District Procurement Rules and ADE’s membership and attendance guidelines, that are not addressed in this questionnaire, the audit firm should include the compliance findings in its reports issued in accordance with *Governmental Auditing Standards* and Office of Management and Budget Circular A-133, if applicable, or an attachment to this questionnaire. Findings in the attachment should include the same level of detail required for “No” and “N/A” answers as discussed above.

The resulting audit documentation supporting the audit firm’s answers on the questionnaire must be made available on request for the Office of the Auditor General and ADE’s review. To facilitate this review, the audit firm may wish to include in the audit documentation a copy of the questionnaire with references to the audit procedures performed for each question.

Gilbert Unified School District No. 41 For the Fiscal Year Ended June 30, 2015		
Number	CQ Area	Comments
1	Accounting Records	The District did not maintain accounting records in accordance with the chart of accounts as follows: The District incorrectly recorded the BAB federal interest subsidy in Fund 665 rather than Fund 700. The District's Building Renewal Fund is inactive, however the District has not closed the fund. The District incorrectly recorded revenue in the Building Renewal Grant Fund, a cash controlled fund, which ultimately caused the fund to have deficit cash of \$47,466 as of year-end. The District also had deficit cash in the Instructional Improvement Fund of \$24,243.
2	Accounting Records	The District incorrectly recorded a beginning fund balance adjustment in Fund 665 twice. The District also incorrectly recorded a journal entry that was intended to move expenditures and cash from the M&O Fund to the Indirect Cost Fund because the entry was posted twice.
3	Accounting Records	The District's cash reconciliation process was not sufficient to ensure that an error would be prevented or detected and corrected. This resulted in numerous errors in the accounting records as described in comments #1 and #2. Also, the District did not record the July 1, 2014 bond principal and interest payments; the reconciliations had improper reconciling items, and numerous outstanding reconciling items from prior years.
4	Cash and Revenue	The Miscellaneous Receipts Clearing bank account was not remitted to the County Treasurer on a monthly basis.
5	Cash and Revenue	The District has an unauthorized bank account open under its Tax ID number. The purpose of the account is to help employees in need.
6	Cash and Revenue	For one of five student activities cash receipts, two of five extracurricular tax credit cash receipts, and one of five miscellaneous cash receipts reviewed, determined deposits were not made timely. Additionally, a prenumbered receipt was not maintained for a JTED payment the district received, therefore it could not be determined whether the District deposited the money timely.
7	Procurement and Expenditures	For one of 40 disbursements reviewed, the purchase order was approved on 5/27/15, however the District began to receive the services 5/12/15.
8	Procurement and Expenditures	No documentation was retained to verify that training was completed for all card users and employees involved with processing credit card transactions. Further, the District did not retain signed card user agreements.
9	Procurement and Expenditures	The District's sole source procurement documentation for one of 27 purchases (Walmart) did not substantiate that only one source existed.
10	Payroll	The District did not utilize a delayed payroll system for the last pay of the year. All employees are paid on June 30 for work performed through June 30.
11	Payroll	The District does not have procedures in place to ensure that at no point during the year an hourly employee was overpaid. Specifically, prorated hourly employees are paid for a full two weeks of work before the work has been performed for the first pay period.
